TEAM OF THE QUARTER

Pictured with KyuJung Whang are Teri Whitmore, Tina O’Shea, Christine Hass and Tom LiVigne

July 2014
Teri, Christine and Tina have gone above and beyond the call of duty in the past three months, taking on extra work load in addition to their individual duties. They have initiated and continue to work toward a more organized and comprehensive system of record-keeping in their department. This system requires organizing and archiving thousands of maps, building plans, historic renderings and general documentation that date back to the beginning of the University. They have spent numerous hours culling documents that are no longer relevant or require saving either with University Archives, Facilities Services Archives, or with Frank Popowitch in the Campus Planning Office. In addition, they have developed a very comprehensive system for retaining and storing these items that should remain in their possession.

Additionally, due to an illness within their working group Teri, Christine and Tina assumed a great deal of their colleague’s workload. As a result, even being short-handed this office did not miss a beat and was all done with a smile.

Congratulations Teri, Christine and Tina!
