Project Manager: Davies Orinda/Jim Kazda
Architect: TBD
Project Size: 106,500 GSF
Location: College of Veterinary Medicine Complex

Project Description:
The purpose of this project is to design and construct the additions, renovations, and expansion efforts required to support the College of Veterinary Medicine Class Expansion program. This will allow the College to increase DVM enrollment to 120 students.

The project will be implemented in two phases. Phase I will include full design and construction of lecture halls, demonstration areas and common space to support the planned growth. Phase II will include renovation and repurposing of existing facilities to support the continuing DVM education programs.

Project Status:
Architect selection is in process, the shortlist has been established and contract award is anticipated in May 2012.
