Project Manager: Brad Newhouse
Architect: Weiss/Manfredi Architects
Project Size: 106,500 GSF
Location: College of Veterinary Medicine Complex

Project Description:
The purpose of this project is to design and construct the additions, renovations, and expansion efforts required to support the College of Veterinary Medicine (CVM) Class Expansion program. This will allow the College to increase the Doctor of Veterinary Medicine (DVM) enrollment to 120 students.

The project will be implemented in two phases. Phase I will include full design and construction of lecture halls, demonstration areas and common space to support the planned growth. Phase II will include renovation and repurposing of existing facilities to support the continuing DVM education programs.

Project Status:
The concept report will be completed and distributed mid-January for review by Cornell Stakeholders. The design team presents to the Architectural Advisory Committee on February 1, 2013 for input on the project. Approval of design is scheduled for B&P in March.

Approvals to Date:  
CFPC  B&P
Concept/Scoping Study  Aug 09
Project Plan  Nov 11  Jan 12

Project Milestones:
Scheduled Design Start:  Aug 12
Phase I:
Scheduled Construction Start:  Apr 14
Scheduled Completion  Apr 15
Phase II:
Scheduled Construction Start  Apr 15
Scheduled Completion  Oct 16
