A quick start guide to using the new Infrastructure, Properties and Planning Website

The new IPP website goes live Tuesday, November 1st!

Contact Debra Howell (dhowell@cornell.edu) or Joe Remillard (jhr34@cornell.edu) for more information.
Quickly find services you need using the services menu.

Information, tools, and links for project owners and project managers.

Find frequently used links on the homepage.

Informational resources for staff, students, faculty, and visitors appear in this bar.

The old site will remain active for now under the **For IPP Employees** link.

Give the new homepage a close look. It contains links to frequently used tools and information and will reduce the amount of searching and clicking you need to do!
The services menu makes all of IPP's services available in one easy to use location. The projects menu does the same for project related services.

Navigation is now service based, meaning you do not need to know the IPP org structure to navigate the site. Most content can be quickly found using homepage links, the services menu and projects menu.
Individual service pages provide important information about an IPP service and everything you need to know to get started. There are also links to related tools and content.
Department pages provide information about a department’s role, responsibilities, and organizational structure. Staff listings, tools, and contact information are also provided.
